

Sensitive Content

This record contains content that some people may find uncomfortable, offensive, harmful, outdated and biased, and which may depict or describe violent or graphic events.

We have chosen to retain such language and content in our collection for historical accuracy and to accurately document both the context of the time and the attitudes of the people to whom the stories and materials relate.

Please email stuart.lee@it.ox.ac.uk if you encounter something that you consider to be problematic and which does not have a warning in place.
